Product List Edition

CNCGLASS · Silicone Vacuum Bags — Product List / Specifications

Silicone vacuum bags made of two silicone sheets with edge sealing, for glass lamination vacuuming and EVA vacuum-oven applications. Two vacuum holes are provided; hole locations are customizable.

Please note: even though the colors are different, the silicone properties are the same.

Specifications below. Commercial terms available on request.

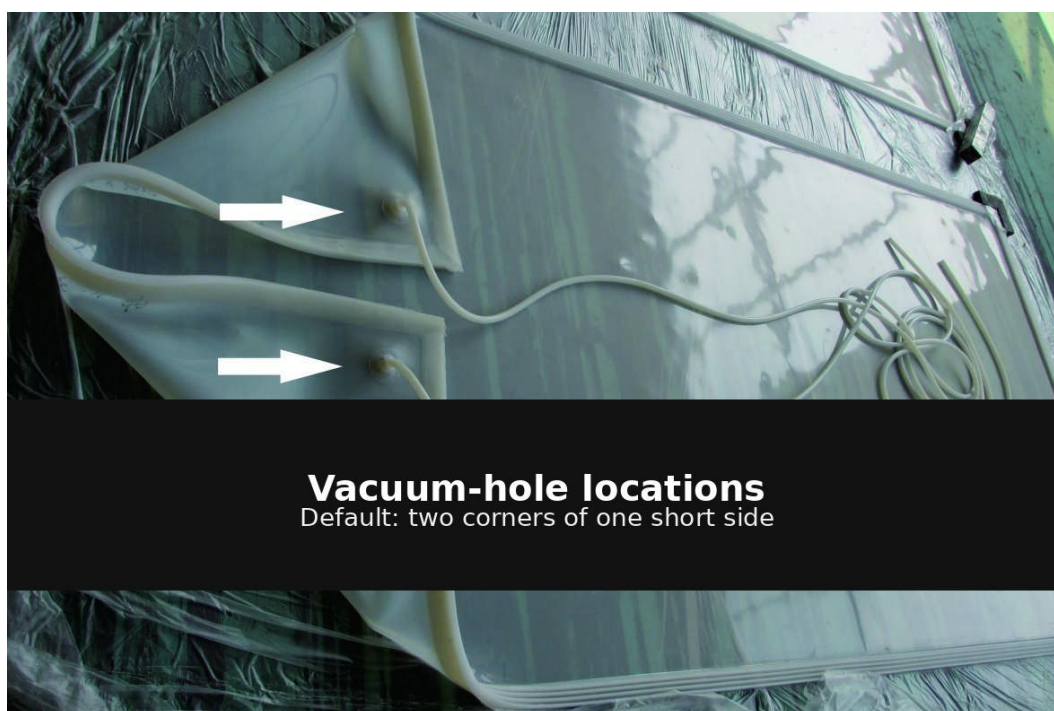

Product	Colors	Vacuum Holes	Application
Silicone vacuum bag (two sheets, edge sealing)	White / Green / Blue	2 (customizable; default: two corners of one short side)	Glass lamination vacuuming

Default vacuum-hose / vacuum-hole location: two corners of one short side. Locations are customizable — please send a draft if you need a different layout.

Note: Custom sizes available upon request. Please contact us for commercial terms.

CNCGLASS · Vacuum Hose / Hole Location

Default location of the two vacuum holes: corners of one short side. Send a draft drawing if a customized hose layout is required.

Vacuum-hole locations — default: two corners of one short side (customizable)

CNCGLASS · Blue / White Silicone Sheet

Blue / white silicone sheet — popularly applied in glass lamination vacuuming. Made with a self-developed special formula to improve silicone-sheet properties.

Size: 3 mm × 2.95 m × any length

Property	Specification
Hardness	55 ± 5 Shore A
Tensile Strength	≥ 7.5 MPa
Tear Strength	≥ 28 N/mm
Elongation	450%
Long-Run Temperature	200 °C
EVA Resistance	Strong
Normal Service Life	> 3,000 cycles
Appearance	One side smooth + one side cloth, or both sides smooth

Key features (special formula):

- Great acid resistance
- Chemical-agent resistance
- High-temperature resistance
- Great tensile strength
- Great tearing strength
- Highly prolonged useful life

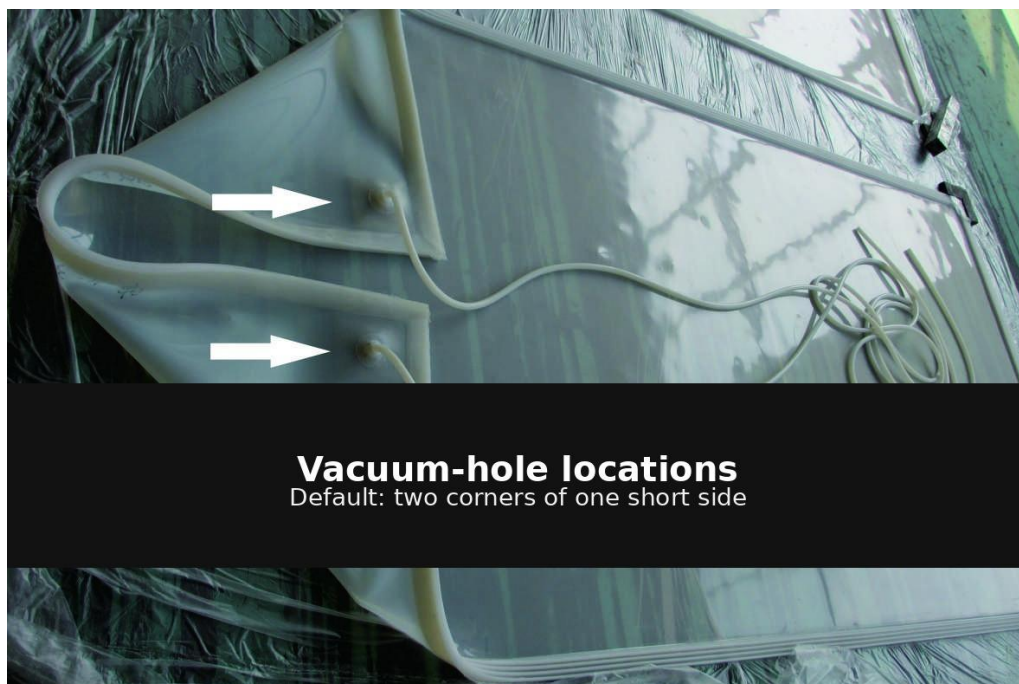

Commercial terms for blue / white silicone sheet available on request. Please contact us for an EXW quotation.
